

2013

Friends University Fact Book

HOW TO USE THE FRIENDS UNIVERSITY FACT BOOK

The Friends University Fact Book is intended to be a reference source for data about students, faculty and staff, financial and fiscal resources. It presents a summary of facts for use by the University community and others with an interest in the University.

Although every effort is taken to assure the accuracy of the data as reported from the source documents or source data, reports are not represented to be error-free. Data may be subject to update and correction without notice.

A Fact Book should be a relevant, functional, dynamic tool. Your suggestions for new ways of presenting information or additions of data to improve future editions are welcome.

Beginning with Fall 2012, a compendium Comparative Data Book is available for use in evaluating performance measures included in this Fact Book. Both of these books are located on the MyFriends site maintained by the Office of Institutional Research and Assessment.

Please forward suggestions or questions to Dr. Stephanie Hargrave by sending an e-mail to stephanie_hargrave@friends.edu or by calling ext. 5886 on campus.

MISSION STATEMENT

Friends University, a Christian University of Quaker heritage, equips students to honor God and serve others by integrating their intellectual, spiritual and professional lives.

PURPOSE STATEMENTS

Friends University believes that it can fulfill its mission by adhering to the following purposes:

- To provide the opportunity for high-quality learning experiences
- To encourage exploration of values – personal, ethical, religious and professional – as enriched by the Christian faith
- To provide a liberal arts foundation that will prepare students for life in a diverse and changing world
- To provide liberal arts and professional offerings to a diverse population of students in delivery modes that are appropriate and varied
- To provide a learning environment that encourages open communication, collaboration, ethical standards and lifelong learning

VALUES

- We believe that the underlying mission of all higher education is the search for truth. Grounded in the Christian tradition and our Quaker heritage, we affirm that truth is of and from God, and that our search is life-long.
- We insist that the search for truth be characterized by excellence and informed by integrity. Excellence demands that our best is always becoming better, and integrity means that we are honest with ourselves and with others. In our practice of excellence and integrity, we each take responsibility for what we do and say.
- As searchers and learners, we support curiosity and research, and assign great value to diversity of experience. As people who value such diversity and openness, we approach new situations and people with good will and humility. We believe in equity and in the dignity of all people.
- As a community, we accept and cherish our responsibility to care for one another in our learning and working relationships. We understand that a part of that care must be to become better stewards of what we have been given. We take care of the future as if we already are there.

VISION

Friends University will become a regional university with national programs and an international presence.

UNIVERSITY OUTCOMES

Graduates of Friends University will demonstrate:

- The ability to read, write and speak appropriately and effectively
- The ability to use mathematical concepts to solve problems
- The ability to explain at least part of the natural world through the scientific process
- The ability to use computers and understand developing technology in a contemporary society
- An understanding of the arts and humanities as fields of study that contribute to our growth both individually and corporately
- An understanding of Christian faith in the context of contemporary existence
- An understanding of the geography, politics, beliefs and customs of the United States and at least one culture outside the United States
- An understanding of the major concepts of the behavioral and social sciences
- Competency in basic research-related skills
- The ability to respectfully engage people whose culture, ideas and beliefs differ from their own in recognition of our human diversity
- Mastery of the level of knowledge appropriate to the degree attained
