¹ Average Annual Cost = The average annual net price for federal financial aid recipients, after aid from the school, state, or federal government. For public schools, this is only the average cost for in-state students.

² Students Paying Down Their Debt = The share of students who have repaid at least \$1 of the principal balance on their federal loans within 3 years of leaving school.

³ Students Receiving Federal Loans = The share of undergraduate students who borrowed federal loans to help pay for college. Excludes Parent PLUS loans.

⁴ Typical Total Debt = The median federal debt of undergraduate borrowers who completed. This figure includes only federal loans; it excludes private student loans and Parent PLUS loans.

⁵ Typical Monthly Loan Payments = The median monthly loan payment for students who completed, if it were repaid over 10 years at a 4.29 percent interest rate.

⁶ Graduation Rate = The graduation rate within 150 percent of the expected time to completion (typically six years for schools that award predominantly four-year degrees). These rates are only for full-time students enrolled for the first time.

⁷ Students Who Return After Their First Year = The share of first-time, full-time undergraduates who returned to the institution after their freshman year.

⁸ Percentage Earning Above High School Grad = The share of former students earning more than \$25,000, or about the average earnings of a high school graduate aged 25-34, 6 years after they first enroll.

⁹ Salary After Attending = The median earnings of former students who received federal financial aid, at 10 years after entering the school.

¹⁰ Socio-Economic Diversity = Percentage of undergraduate students have a family income less than \$40K and receive an income-based federal Pell Grant to help pay for college.
