The Teacher Education Assistance for College and Higher Education (TEACH) Grant Program was created to provide up to \$4,000 a year to undergraduate and graduate students who agree to serve for at least four years as full-time “highly qualified” teachers in high-need fields in a public or nonprofit private elementary or secondary schools that serve students from low-income families.

The TEACH Grant provides up to a maximum yearly amount of \$4,000 in grants (\$16,000 total for an entire undergraduate program; \$8,000 total for graduate students) for full-time enrolled students. Funding is available to student’s enrolled half-time, although amounts will be reduced. Currently, the maximum is slightly less than \$4,000 due to federal sequestration. Eligible award amounts are based on enrollment status and date of award disbursement.

We recommend that only students who are committed to teaching a high-need subject in a designated low-income school upon graduation should consider this grant. This teaching obligation must be completed in a public or nonprofit elementary or secondary school that is eligible for Title I assistance. If the four year teaching obligation is not met within eight years of graduation, the grant will convert to an unsubsidized loan, which will have to be repaid with interest calculated back to the date the funds were disbursed.

Please check your student email for correspondence from our office.
